Members of the Cleveland City Board shall have the authority only when acting as a Board legally in session. The Board shall not be bound in any way by any statement or action on the part of an individual member except when such statement or action is in pursuance of specific instruction of the Board.

It shall be the policy of the Board to make its members, the district staff, and the public aware that only the Board has the authority to take official action.

Members of the Cleveland City Board of Education are specifically prohibited from contracting personally with the Board or participating in incurring debts beyond the legitimate school income for any particular school year. Board members are expressly charged with the duty to comply with the school laws of Tennessee and to require the Director of Schools and all teachers to do likewise.

Board Operation, Goals, and Objectives

The Board's primary objective is to establish purposes, programs, and procedures which will produce the educational achievement needed by students of the school system. The Board shall fulfill these responsibilities by functioning primarily as a legislative body to formulate and adopt policy and by evaluating the results.

In accordance with these principles, the Board shall seek to achieve the following goals:

1. To provide leadership so that the goals and objectives of the school system can be effectively carried out;
2. To conduct board business openly, soliciting and encouraging broad-based involvement in the schools' decision making processes by the public, students and staff;

BRADLEY/CLEVELAND PUBLIC EDUCATION FOUNDATION

The Bradley/Cleveland Public Education Foundation is a 501(c)(3) organization established in 2003 to partner with Bradley County and Cleveland City Schools to raise community awareness, gain financial support and enhance teaching and learning. This partnership supports classroom instruction in 26 schools for over 15,000 students by providing funds for supplemental academic programs and materials not covered in regular school budgets.

The Foundation's VISION is to be a leader in supporting innovative public education providing for classroom resources and programming needs without limit and supporting teaching excellence through advancing professional development with measurable academic success for all students.

Its mission and vision are based on BELIEFS that

- An educated public is foundational to a healthy, productive society;
- Every child has the right to be educated to his/her highest level of ability in an environment that fully strengthens the educational process;
- The local school systems should be financially supported to the extent that they may focus exclusively on the educational process;
- Private financial support should enhance public support of education; and
- Private donors to the educational process should be appropriately thanked and recognized for their contributions.

Supporting Teaching Excellence

Teacher Grants

The BCPEF Grant program is the signature program for the Foundation. Individual teachers may request up to \$1,000 and school-wide, grade-level, cross-curricular or subject-specific teams may request up to \$5,000 for projects. Awards to dozens of teachers each year support projects in reading, writing, science, technology, engineering, mathematics (STEM), history, geography, etc. for measureable academic results tied to school improvement plans and system objectives. Important dates, forms and detailed guidelines for submitting proposals are available at www.bcpef.org.

Grants submitted by the deadline are evaluated by a team of independent evaluators. The Educational Family Committee members, comprised of teacher representatives from each school, form the nucleus of the evaluation team. Using a scoring rubric proposals are reviewed and scored. The Grants Committee comprised of professionals with grant writing or award expertise make final award determinations.

The materials purchased with grant monies can be used year after year, continuing to facilitate learning for an ever-expanding number of students. Donors supporting these grants are paired with teachers and teaching teams to bring to life the effects of their gifts. Gifts, Grants and Gratitude (GGG) is an annual luncheon honoring donors and grant recipients.

Major Project and Program Support

System-wide, school-wide or teaching team projects are supported through the Foundation upon request. Marrying charitable donors, including corporate and private foundations, with academic projects and programs relating to the donor's interest or focus is a Foundation commission. BCPEF staff assists in writing grant proposals for major projects and programs. As the 501(c)(3) entity for both school systems, BCPEF can access funds from donor foundations requiring that designation.

Professional Development

National Board for Professional Teacher Certification or re-certification is financially supported for qualified teaching professionals. Additionally, year-long Leadership Fellowships are available for aspiring teacher leaders and principals. Annually the Foundation offers a series of workshops to assist classroom teachers to write and submit proposals to Fund For Teachers for self-designed professional development fellowships. Teaching teams can also submit Team Teacher Grant proposals to BCPEF for professional development that relate to school or system objectives. Further information on these professional development opportunities can be found on the website www.bcpef.org.

Scholarships

The Bradley/Cleveland Public Education Foundation (BCPEF) administers scholarship funds established to benefit graduates of the high schools of Cleveland and Bradley County. Its Scholarship Administration Policy is available to anyone interested in this service.

Invest in Education

Because the Foundation believes that a well-educated public is the foundation of our society and the basis of a healthy, progressive community, it encourages broad-based support for its work. The educational family, teachers, administrators, and all ancillary workers, are encouraged to support BCPEF and can do so through payroll deduction or direct on-line giving at www.bcpef.org. Donors within all Levels of Giving to include Scholar, Vision 100, and Legacy Giving, are recognized on this website and updated regularly.

COMPLAINTS AND GRIEVANCES

Definitions

A grievance shall mean a complaint by an employee that he/she has been treated unfairly or inequitably within his/her professional rights.

All time limits consist of school days, except that when a grievance is submitted with fewer than ten (10) days remaining before the close of the current school term, time limits shall consist of all weekdays.

Procedures

The Board desires for an employee and his/her immediate supervisor to resolve problems through free and informal communication. If, however, the informal process fails to satisfy the employee, a grievance may be processed as follows:

Step 1

The employee must present the grievance in writing to the immediate supervisor who will arrange for a meeting to take place within five (5) days after receipt of the grievance. Within five (5) days of the meeting, the grievant shall be provided with the supervisor's written response.

Step 2

If the grievance is not resolved at Step 1, the grievant may refer the grievance to the Director of Schools within five (5) days after receipt of the Step 1 answer. The Director of Schools shall arrange a meeting to take place within five (5) days of the Director of Schools' receipt of the appeal. Within five (5) days of the meeting, the grievant shall be provided with the Director of the Schools' written response.

Step 3

If the grievance is not resolved at Step 2, or the time limits expire without the issuance of the Director of Schools' written reply, the grievant may request a review by the Board with five (5) school days after the employee receives the written decision or within five (5) days after the time limits for Step 2 have expired. The request shall be made in writing through the Director of Schools, who shall attach all related documents and forward the request to the Board. The Board shall review the case and render a decision within ten (10) days based upon documents submitted.

If determined by the Board to be warranted, a hearing shall be held for the employee. The time of the hearing shall be the next regular board meeting or an earlier date agreed to by the Board. The Board shall render a decision in writing within ten (10) days following the hearing. Copies of the Board's decision shall be sent to the aggrieved employee and to the Director of Schools. The Board shall be the final arbiter of all grievances.

General Provisions

At each step, one employee of the school system or an attorney may accompany each party. Failure by the aggrieved at any level to appeal a grievance to the next level within the specified time limit shall be deemed to be acceptance of the decision rendered at that time. Nothing in this document shall be construed as denying a teacher the right to consult with any supervisory or administrative officer in the school system. At any level, time limits may be mutually extended.

TEAM Evaluation Grievances

- Through this procedure, principals and teachers may challenge the following, relative to their evaluation:
 - Accuracy of the data
 - Adherence to the evaluation policies adopted by the State Board of Education
- Step I: Evaluator

- A written grievance must be submitted to the evaluator no later than fifteen (15) days from the end of the summative evaluation, otherwise it will be considered untimely and invalid.
 - Grievance forms will be provided in the Administrative Procedures Handbook at each school.
- Required components of grievance:
 - Teacher or principal's name, position, school, and additional title, if any
 - Name of the teacher or principal's immediate supervisor
 - Name of the evaluator/reviewer
 - Date the challenged summative evaluation was received
 - Evaluation period in question
 - Basis for the grievance
 - Corrective action desired by the grievant
 - Sufficient facts or other information to begin an investigation
- Failure to state specific reasons shall result in the grievance being considered improperly filed and invalid.
- After receiving the grievance, the evaluator shall:
 - Examine the document presented by the grievant and such other documentation as may be relevant and available
 - Communicate a decision, in writing, to the grievant within fifteen (15) days of receipt of the grievance
 - At their discretion, correct any procedural errors made during the evaluation process
- Step II: Director of Schools
 - A written grievance must be submitted by the grievant to the Director of Schools or designee no later than fifteen (15) days of receipt of the decision rendered in Step I.
 - A designee may not be used if the complainant is a principal
 - The Director of Schools will:
 - Hold informal discussion with grievant
 - Hear facts, allegations, and testimony by appropriate witnesses as soon as practical
 - Communicate, in writing, a decision to the grievant within fifteen (15) days of the discussion with grievant
 - Take any action necessary, based on the circumstances, to immediately correct any procedural errors made in the evaluation process
- Step III: Local Board of Education
 - Teachers and principals may request a hearing before the Board of Education by submitting a written grievance and all relevant documentation to the Board of Education within fifteen (15) days of receipt of the decision rendered in Step II.
 - The Board of Education, based on a review of the record, may:
 - Grant or deny a request for a full Board hearing

All leaves shall be required in writing at least thirty (30) days in advance on forms provided by the Director of Schools' office.

The 30-day notice may be waived or reduced by the Director upon submission of a certified statement by a physician. The application for leave forms shall require:

1. A description of the type of leave requested;
2. The requested dates for beginning and ending the leave; and
3. A statement of intent to return to the position from which the leave is granted.

The Director of Schools will act upon each request in accordance with Board policy within fifteen (15) days. Each applicant shall be notified in writing of the Director's action. SPECIAL POPULATIONS/HEALTH SERVICES

SPECIAL POPULATIONS

General Program

Special Education and related services are provided to eligible students. Federal law assures every student the right to a free and appropriate public education regardless of their disability. IDEA is focused on improving educational results for children with disabilities. Federal law also further guarantees the right to an education in the least restrictive environment, which means that students with disabilities should have the opportunity to be

educated with non-disabled peers, to the greatest extent appropriate. They should have access to the general education curriculum, or any other program that non-disabled peers would be able to access.

Special Education Framework

Step One: Screening

A universal screener is used for identifying all students who are at risk for having an educational disability. The universal screener is a brief screening assessment tool that determines whether students demonstrate the skills necessary to achieve grade-level standards. The screener also reveals which students are performing at or above the level considered necessary for achieving long-term success (general outcome measures).

Step Two: Pre-Referral Interventions

Students who are identified as “at risk” by the screener will receive appropriate interventions in their identified area(s) of deficit. These interventions are often determined by school-based teams by considering multiple sources of data. Within the RTI2 Framework, academic interventions are provided through Tier II and/or Tier III interventions.

Step Three: Monitor Progress

When pre-referral interventions are being provided, the effectiveness of the intervention will be monitored to ensure its effectiveness. For academic deficits within the RTI2 Framework, progress can be monitored using Curriculum Based Measures (CBMs). Progress monitoring will be done in the area(s) of deficit.

Step Four: Referral

If a student is suspected of an educational disability and/or is not making adequate progress with Tier III interventions, he/she may then be referred for a psycho-educational evaluation. A referral may be made by the student’s teacher, parent, or outside sources. All available information relative to the suspected disability, including information from the parent and about the interventions that have been implemented, will be collected. In addition, all relevant information must be considered before determining whether additional data, such as medical information or evaluation results, are needed. This decision cannot be made by an individual teacher or administrator but must be made by a team of professionals.

Documentation already provided throughout tiered interventions will be vitally important to the special education referral process. This information is reviewed at a team meeting with the student’s parents prior to making a special education referral. Once a referral is made, parents will sign the consent for initial assessment form, receive a copy of their procedural safeguards, and provided a prior written notice.

Step Five: Evaluation

All areas of suspected disabilities must be evaluated. In addition to determining the existence of a disability, the evaluation should also focus on the educational needs of the student as they relate to a continuum of services.

After the completion of the comprehensive evaluation, and the Instructionally Appropriate Individual Education Plan (IAIEP) team meets to determine whether the evaluation results indicate the existence of a disability and whether the child exhibits a need for special education. When a student becomes eligible for special education services, the development of the Instructionally Appropriate Individual Education Plan (IAIEP) should focus on educational needs that cannot be met in the general education program. Goals in the IAIEP are based on the specific skills deficit area(s) of the child and results of the initial or most recent evaluation of the child.

Step Six: Determine Eligibility

Once written parental consent is obtained, the LEA must conduct all agreed upon components of the evaluation and determine eligibility within sixty (60) calendar days. The determination of eligibility for special education services is two-pronged: after completion of the evaluation, the IEP team meets to determine whether the evaluation results indicate the existence of a disability and whether the identified disability adversely impacts the student’s educational performance such that he needs the most intensive intervention (i.e. special education). The parent is provided a copy of the psycho-educational evaluation and the eligibility report at the

time of this meeting. If the student has been found eligible as a student with an educational disability, an IEP is developed within thirty (30) calendar days.

Other requirements for determining eligibility for special education include the following: The student's assessment may include information from a variety of sources, such as aptitude and achievement tests, parent input, teacher recommendations, physical condition, social or cultural background, and/or adaptive behavior. Information obtained from these sources should be documented and carefully considered. Determination of eligibility is made by the IEP team upon a review of all components of the assessment. A student is not eligible for special education services if there are determinant factors for eligibility is either lack instruction in reading or math or limited English proficiency.

HEALTH SERVICES

Immunizations

A student may be counted in the average daily attendance if he/she meets one of the following:

- *Legally immunized;
- Has an acceptable religious or medical exemption;
- Is as immunized as he/she can be

A student is legally immunized if he/she meets the following standards:

- 4 doses of DPT (diphtheria, pertussis, 3 doses of DPT vaccine or TD (tetanus) vaccine, (tetanus, diphtheria) vaccine or a combination of these vaccines -- one of which was given on or after the sixth birthday
- 4 doses of polio vaccine -- one of which was given on or after sixth birthday
- 1 dose of measles vaccine – given on or after first birthday, or a history of measles disease diagnosed and attested to by a physician
- 1 dose of rubella vaccine -- given on or after first birthday (females who have attained their thirteenth birthday need not receive rubella vaccine)
- 1 dose of mumps vaccine -- given on or after the first birthday, or a history of mumps disease diagnosed and attested to by a physician

* Legal immunizations are those required for a child to attend school. Most physicians and health departments would recommend more.
